CAREER SUMMARY

Full Stack Web Developer and Tutorials Author at Packt, Udemy and Youtube, I love helping people by making High Quality Video and Written Tutorials from covering basic ideas to advanced concepts.

Writing weekly blog tutorial posts at my learning platform ipenywis.com. Worked with Packt for making high quality course series about Electron and React. Work with freelance companies and startups for developing Web Apps (Frontend and Backend).
Freelancing and working with Remote teams and companies for developing solutions to multi-layer web platforms and deploying Cloud-Based Micro-Services Applications.

Previous GDG Co-Founder at GDG Setif and Organizer of Google Events and workshops for different technologies.
